ECM3412/ECMM409 Nature Inspired Computation

Lecture 8 – Q&A and Workshop

Continuous Assessment

- CA1 – Is worth **20%**
- Handin – 12noon 20th November 2008

- You should implement Binary Tournament Selection **with** replacement (e.g. the two random individuals you select could be the same)

- Although, in practice this will make very little difference to your results

Today

- Questions – if you have any, ask questions about the lectures so far, whilst you're doing the:

- Workshop
- You'll need:
  - A pen and paper
  - Your brain
- Will help to consolidate the algorithms we've looked at so far
- May help with the CA
